Post Vasectomy Semen Analysis

Full Name: _____ Birthday _____

Procedure Date: _____ Send in specimen after: _____

Phone number to call with results: _____

Ok to leave a message? YES No

Instructions for Semen Sample

1. Approximately **12 weeks** following your vasectomy, collect one sample of your semen. This can be obtained in any airtight container that is convenient to you. DO NOT touch the inside of the vial. DO NOT wash the vial out.
2. If you send in your sample before 12 weeks, you will be responsible for sending in a new sample on the date specified on the sheet.
3. You can drop off the specimen at either office, or you can bring your sample to the post office and purchase a prepaid package to send your sample if you live far away. Please send it to the addresses below:

    a. Procedure Clinic, 11855 Ulysses St NE, Suite 220, Blaine, MN 55434

    Or

    b. Procedure Clinic, 515 State Road 436, Suite 1010, Casselberry, FL 32707

Office use only
